By reading this book I have learned tons of healthy, delicious and easy recipes. This book is well written and most of the recipes are clearly described. I am very glad to read this book. For me, this book is very useful, and I want to recommend it to anyone who wants to prepare food in this way. 0 of 0 people found the following review helpful. I love crock pot meals and this book has some great ... By Tracen I love crock pot meals and this book has some great ones. One of my favorite things about this book is it jumps right into the recipes from the beginning. The recipes are well laid out including a nice picture, ingredients of course and directions which is nice. There's all kinds of recipes ranging from soups, stews, chili, even tacos and other foods you wouldn't think like spaghetti squash and a baked potato recipe. So far my favorite recipe is chipotle quinoa chile. 0 of 0 people found the following review helpful. so it was nice to see a lot of quinoa. By Eric I had no idea you could do so much with a crock-pot. As a bodybuilder, I have to eat so much food to continue to gain and build muscle mass. This book has made me think about breaking my routine diet of oatmeal, sandwiches, and rice with beans. I don't eat meat, so it was nice to see a lot of quinoa, tofu, and black bean recipes in the book. I should really consider buying a crock-pot and stop letting my meals get stale.
